## NAVIGATION STUDIES

The maritime sector, in its broadest sense, provides valuable opportunities for students to gain practical experience in the fields of navigation, ship handling, and maritime safety. These courses are designed to provide students with the knowledge and skills necessary to navigate vessels safely and efficiently, ensuring the smooth and successful completion of voyages. The curriculum is comprehensive, covering various aspects of navigation, including chart reading, dead reckoning, and use of electronic navigation devices. Students will also have the opportunity to work with experienced navigators, gaining practical experience in real-world situations.

## NAUTICAL STUDIES

The Nautical Academy is the premier provider of maritime education and training for students interested in pursuing careers in the maritime industry. The academy offers a wide range of programs designed to cater to the diverse needs of students, from beginners to those with prior experience. The programs are delivered by experienced instructors, ensuring a high-quality learning experience.

## ENGINEERING STUDIES

The Engineering Academy is dedicated to providing students with the knowledge and skills necessary to excel in the field of maritime engineering. The academy offers a comprehensive curriculum covering various aspects of engineering, including ship design, mechanical engineering, and electrical engineering. Students will have the opportunity to work with state-of-the-art equipment and software, gaining hands-on experience in real-world projects.

## OFFSHORE SAFETY TRAINING

The Offshore Safety Academy is dedicated to providing students with the knowledge and skills necessary to work in the offshore oil and gas industry. The academy offers a comprehensive curriculum covering various aspects of offshore safety, including offshore operations, emergency response, and environmental protection. Students will have the opportunity to work with state-of-the-art equipment and software, gaining hands-on experience in real-world projects.

## SIMULATOR BASED TRAINING

The Academy offers a wide range of simulation-based training programs designed to provide students with a realistic and immersive learning experience. The programs are delivered by state-of-the-art simulators, ensuring a high-quality learning experience.

## MARITIME MANAGEMENT STUDIES

The Academy offers a comprehensive curriculum covering various aspects of maritime management, including business management, finance, and logistics. Students will have the opportunity to work with state-of-the-art equipment and software, gaining hands-on experience in real-world projects.
